

# Ewe & Lamb Lick

*Supplements to Sustain Health & Performance*

### What is AMS **Ewe & Lamb Lick** Mineral Lick for Sheep?

**AMS Ewe & Lamb Lick** is a dry, water resistant formulation supplying essential macro and micro minerals and vitamins for grazing ewes and lambs.

**AMS Ewe & Lamb Lick** contains the macro minerals, Calcium, Phosphorus and Magnesium, to support the growth and development of lambs and ewes, and will meet the gap in mineral nutrition for pre-lambing ewes, assisting in the prevention of milk fever (twin lambing sickness) and helping to improve milk production in ewes and growth rates in lambs.

**AMS Ewe & Lamb Lick** also contains the micro minerals, Zinc, Cobalt, Selenium, Manganese, and Iodine and the vitamins A, B1, D and E as well as Biotin for hoof development and strength.

**AMS Ewe & Lamb Lick** also contains Bovatec ® to assist with liveweight gains and feed conversion efficiency and aid in the reduction of faecal shedding of coccidida.

### What are the benefits of using AMS **Ewe & Lamb Lick** Mineral Lick?

- Supports the growth and development of Ewes and Lambs
- Assist in maximising weight gains
- Significantly assists in correcting vitamin and mineral deficiencies
- Assists in improving fertility in Ewes
- Reduce pregnancy toxemia and grass tetany
- Increases resistance to internal and external parasites
- Contains Bovatec ® to improve feed efficiency
- Contains a weatherproofing agent to repel moisture in a paddock adlib feed situation

## Why use AMS **Ewe & Lamb Lick** Mineral Lick?

Feeding **AMS Ewe & Lamb Lick** provides ad-lib availability to animals that do not have access to good quality feed sources and offers the necessary vitamins and minerals for sustaining health, growth and development. Animals deficient in vitamins and minerals can self-medicate and recover faster when offered **AMS Ewe & Lamb Lick**.

### Feed rates for **AMS Ewe & Lamb Lick**:

**AMS Ewe & Lamb Lick** should be offered to ewes and lambs in open troughs or self-feeders. It is designed for a daily intake of 15-30 grams/head. In showery or wet weather troughs should be checked daily.

**Ewe & Lamb Lick** is available in 20 kg bags
